LABORATORY RESULTS - RENAL FUNCTION PANEL

Synthetic case: DEMO-REN-2087 | Collection: 2026-06-03 09:40 | Specimen: Serum
Ordering service: Nephrology | Referral context: chronic kidney disease, stage documented by referring clinician as 3b; this report does not independently assign a disease stage.

TEST / ANALYTE	RESULT	UNIT	REFERENCE	FLAG
Sodium	137	mmol/L	(135-145)	
Potassium	5.2	mmol/L	H (3.5-5.1)	
Chloride	103	mmol/L	(98-107)	
Carbon dioxide	20	mmol/L	L (22-29)	
Urea nitrogen (BUN)	38	mg/dL	H (7-20)	
Creatinine	1.86	mg/dL	H (0.60-1.10)	
Estimated GFR	39	mL/min/1.73m2	>=60	L
Calcium	8.8	mg/dL	(8.6-10.2)	
Phosphorus	4.7	mg/dL	H (2.5-4.5)	
Albumin	3.7	g/dL	(3.5-5.0)	

Prior values supplied for comparison (not directly comparable if methods differ):
2026-03-02 creatinine 1.74 mg/dL; eGFR 43 mL/min/1.73m2.
2025-12-08 creatinine 1.69 mg/dL; eGFR 45 mL/min/1.73m2.
No reference interval was printed for eGFR in the prior outside laboratory record.

Laboratory note: eGFR estimates may be affected by clinical factors and are not measured GFR.

LABORATORY RESULTS - URINE AND ADDITIONAL TESTS

Synthetic case: DEMO-REN-2087 | Collection: 2026-06-03 | Page 2 of 2

Urine albumin/creatinine ratio 286 mg/g H (<30)
Urine albumin 34 mg/L
Urine creatinine 119 mg/dL
Hemoglobin 10.8 g/dL L (12.0-16.0)
Ferritin 74 ng/mL (15-150)
Transferrin saturation 19 % L (20-50)

URINALYSIS (MIDSTREAM SPECIMEN)

Appearance	Clear	
Specific gravity	1.014	1.005-1.030
Protein	1+	
Blood	Negative	
Nitrite	Negative	
Leukocyte esterase	Trace	

Microscopy: 0-2 RBC/hpf; 3-5 WBC/hpf; no casts reported.

The outside report did not state units for protein by dipstick. No numeric conversion applied.
END OF REPORT - Synthetic educational test fixture; not a real patient record.
